Quick Start Guide*1

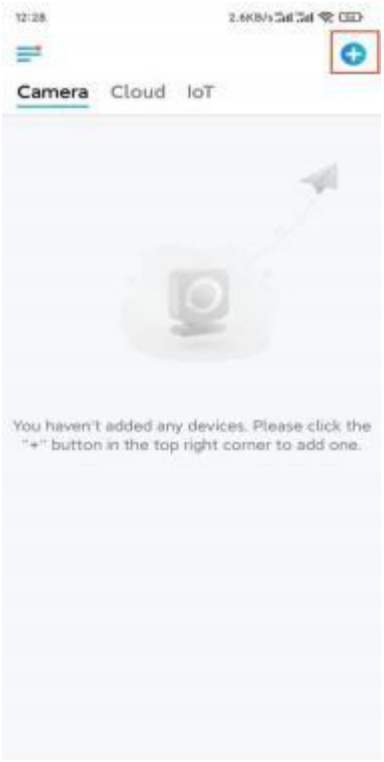

Set up the camera on the App

Please follow the steps below to do initial setup for the battery-powered cameras via Reolink App.

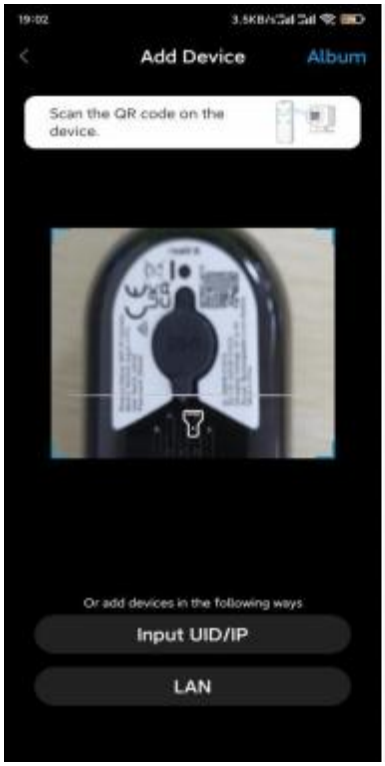

Step 1. Power on the camera. Remember to turn on the power switch on the camera before initial setup. After a startup sound, you will hear a **repeated Ding sound** or a **voice prompt**.

Note: The voice prompt you will hear may be "Welcome to Reolink, please install Reolink App and scan the QR code on the camera" in multilingual versions, or "please run Reolink App, add the camera and set it up".

Step 2. Tap the icon ⊕ in the top right corner to start the initial setup.

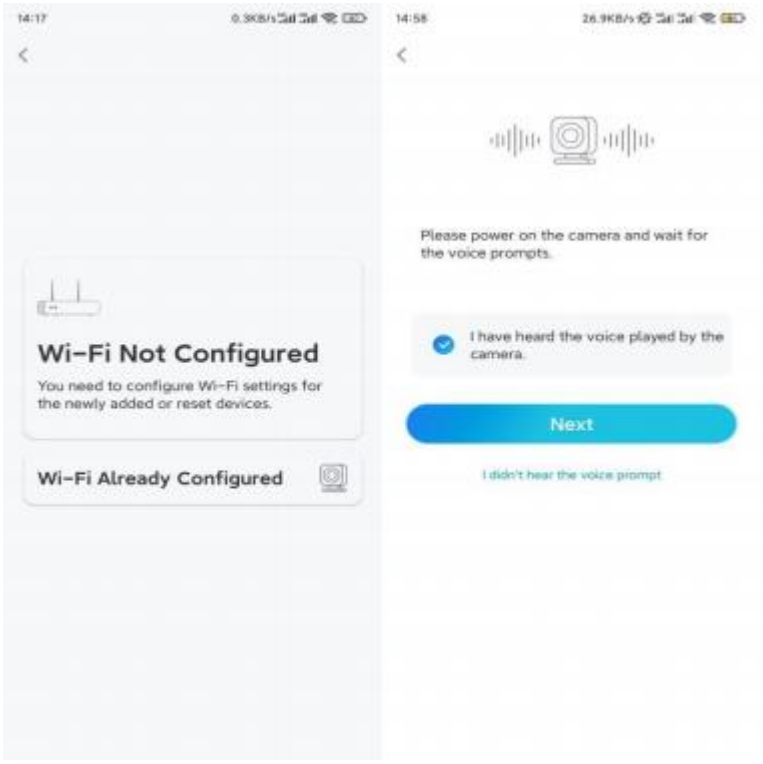

Step 3. Scan the QR code on the back of the camera. You may tap **Light** to enable a flashlight when setting up the camera in a dark environment. If the phone doesn't respond, please tap **Input UID/IP** and then manually type in the UID (16-digit characters under the QR code of the camera). Then click **Next**.

Step 4. Select **Wi-Fi Not Configured**. If you hear a voice prompt played by the camera, please tick correspondingly and then tap **Next**.

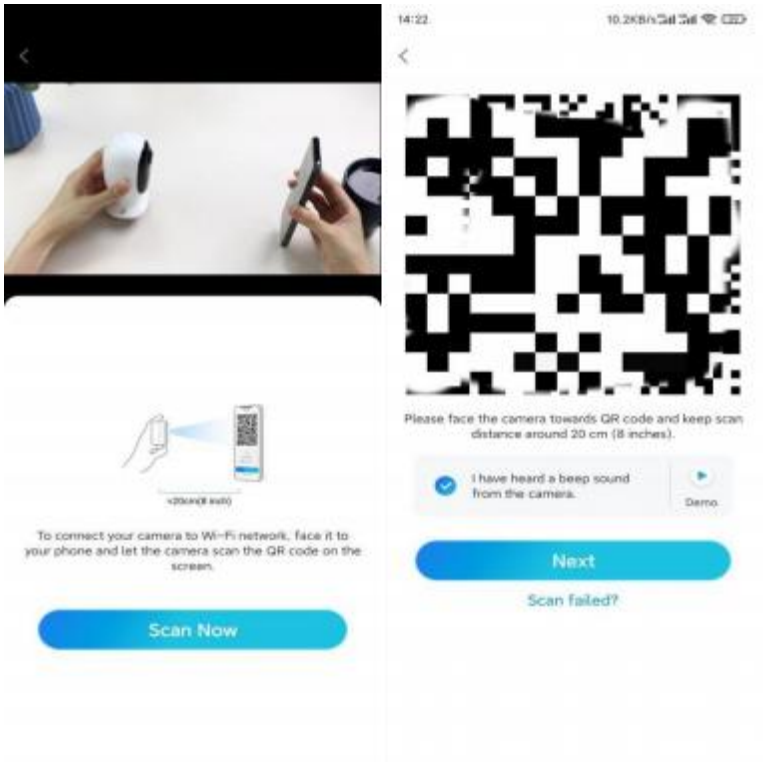

Step 5. Enter the Wi Fi password of the selected Wi Fi network (you may tap the right eye icon to see and double-check the password) and tap **Next**.

Note: Track Mix Series B770 supports 5/2.4 GHz dual-band Wi Fi.

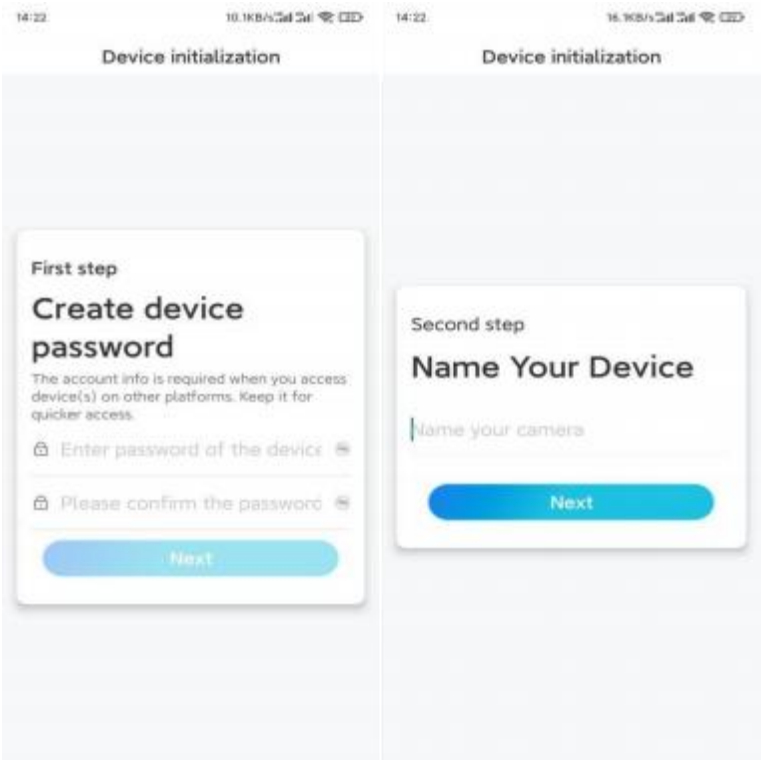

Step 6. Tap **Scan Now**. Place the QR code on your phone in front of the camera's lens at a distance of about 20 cm (8 inches) and let the camera scan the QR code. Tick correspondingly and tap **Next**.

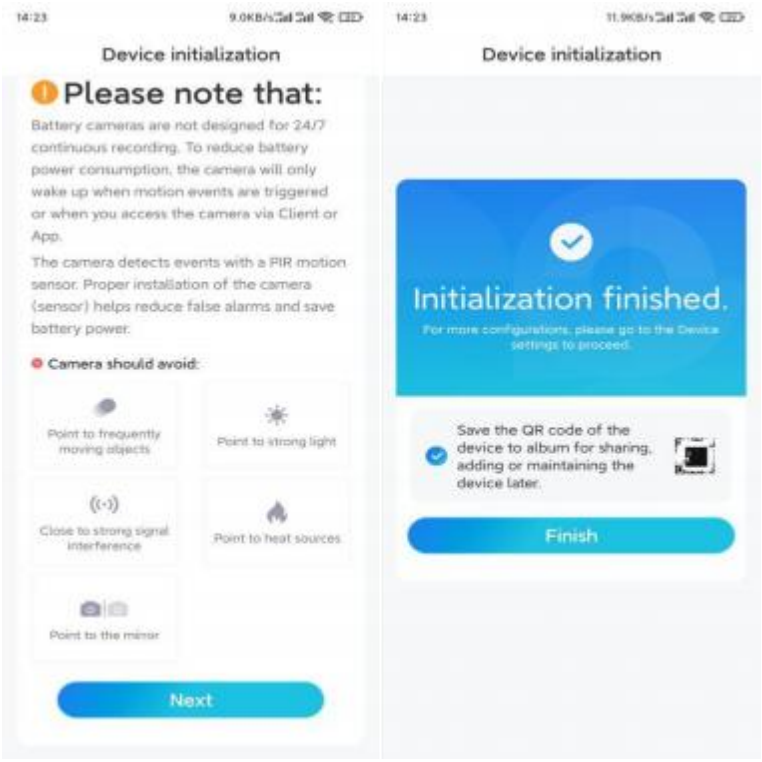

Step 7. Wait around 60 seconds for the camera to connect to the router. After hearing "connection to the router succeeded", tick correspondingly and tap **Next**.

Step 8. Create a login password and then name your camera.

Step 9. Read the note below and then tap **Finish** to complete the initialization of your camera.

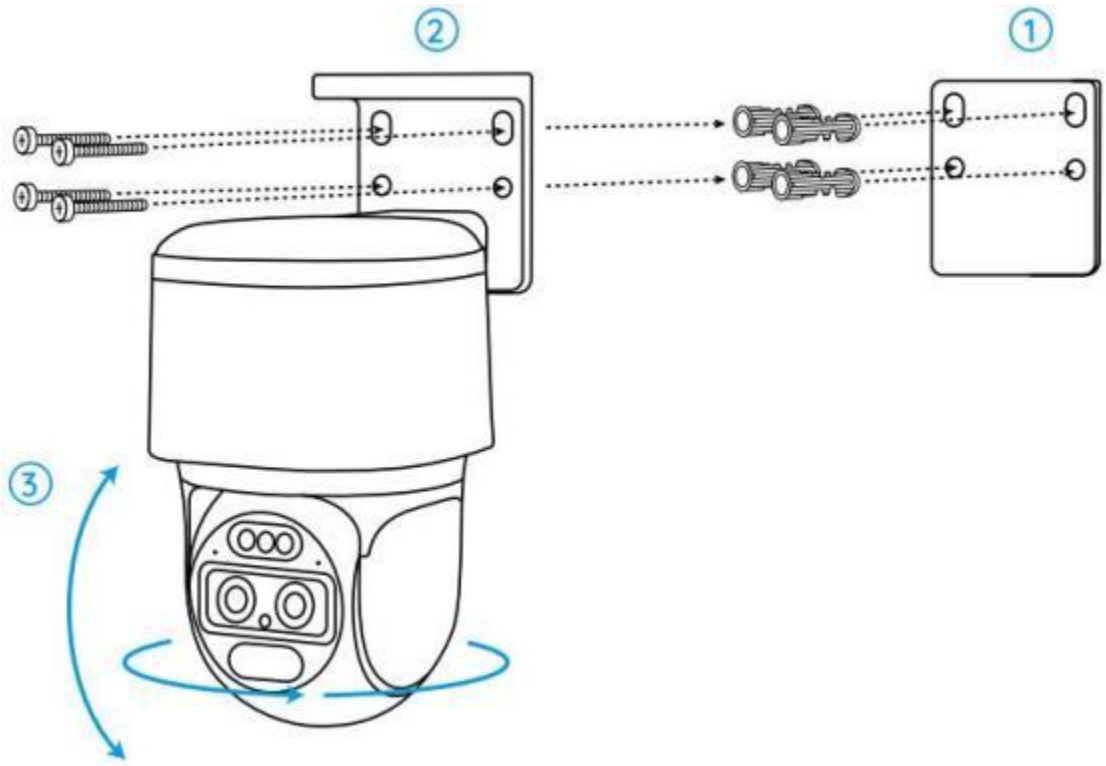

Once the initial setup is completed, you may choose a good position to mount your camera.

Install the Camera

Following the excitement of setting up your Track Mix Series B770, you will face up the installation of the camera. So we are here to help you with guides on how to mount the camera on the wall or the ceiling. It's up to you.

Mount the Camera to the Wall

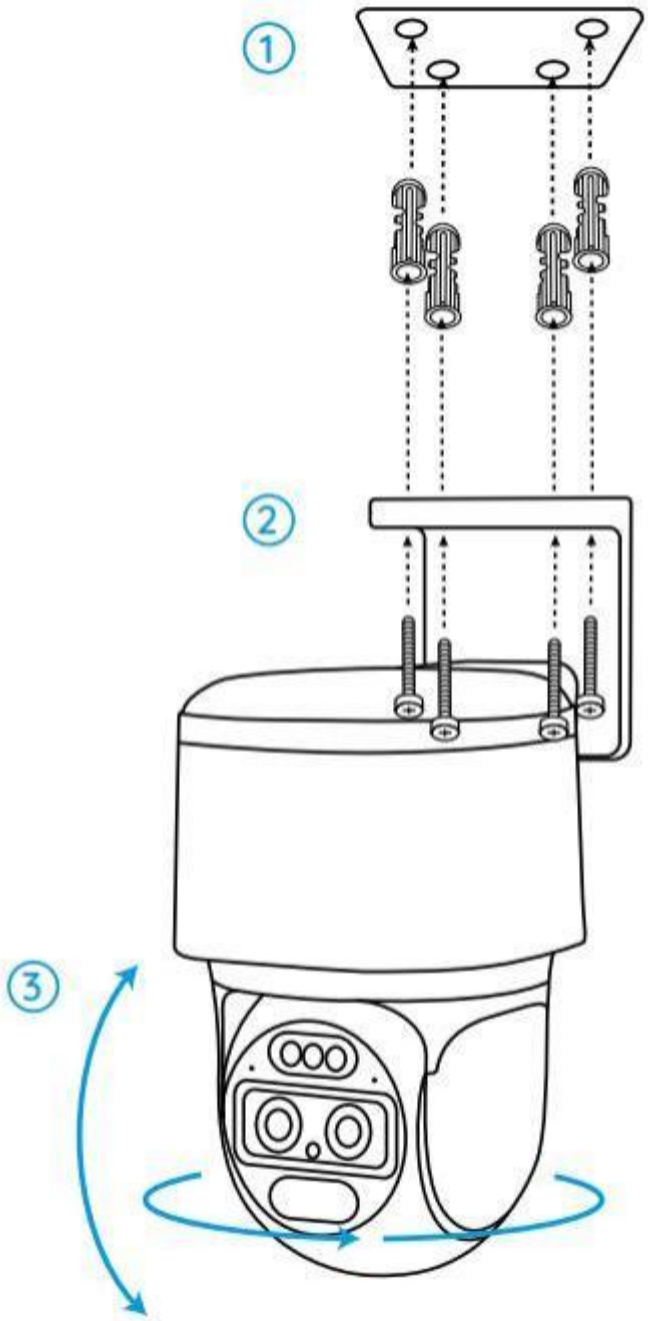

Step 1. Stick the mounting hole template on the wall and drill holes correspondingly.
Step 2. Screw the mount base to the wall using the screws included in the package.
Step 3. You may control the camera to pan and tilt via Reolink App or Client to adjust the camera's direction.

Note: If you install the camera on a pretty hard surface such as drywall, use the drywall anchors included in the package.

Mount the Camera on the Ceiling

Step 1. Stick the mounting hole template on the ceiling and drill holes correspondingly.
Step 2. Install the mount base to the wall using the screws included in the package.
Step 3. Adjust the camera's direction by controlling the camera to pan and tilt via the Reolink App or Client.

Note: Use the drywall anchors included in the package if needed.
