- Step 2. Form
- Step 3. License activation
- Annex I

INTRODUCTION

This manual shows, step by step, how to process and activate a SF-CMS-MSIGN license, either by a new purchase or a renewal of an existing license.

STEP 1. ACQUISITION OF LICENSES

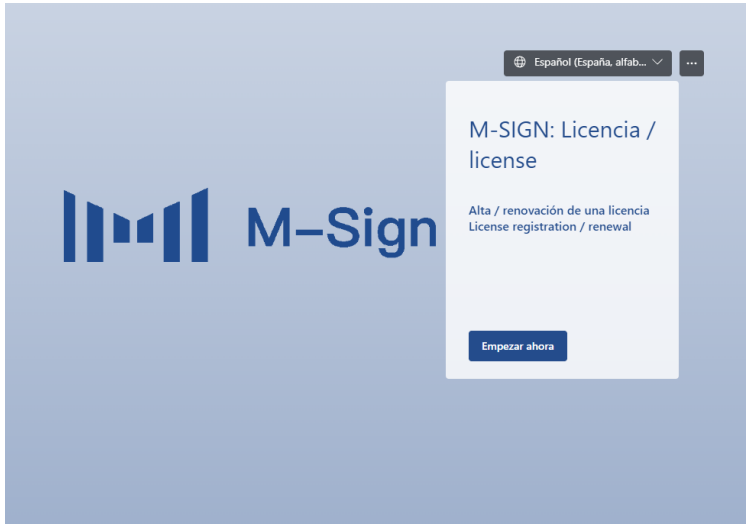

Purchase the number of licenses you need through Visiotech's website (by clicking on the image) or from your sales representative.

STEP 2. FORM

Fill out the form below (by clicking on the image or scanning the QR code), choosing the option that best suits your needs:

- Create a ner account and add license: new users who don't have access to the M-Sign platform and have purchased a license for the first time.
- Create demo account: new users who want to get to know the M-Sign platform before purchasing a license.
- Add license to my account: users who already have access to the M-Sign platform and have purchased new licenses to add.
- Renew license: existing users who want to renew an expired license.

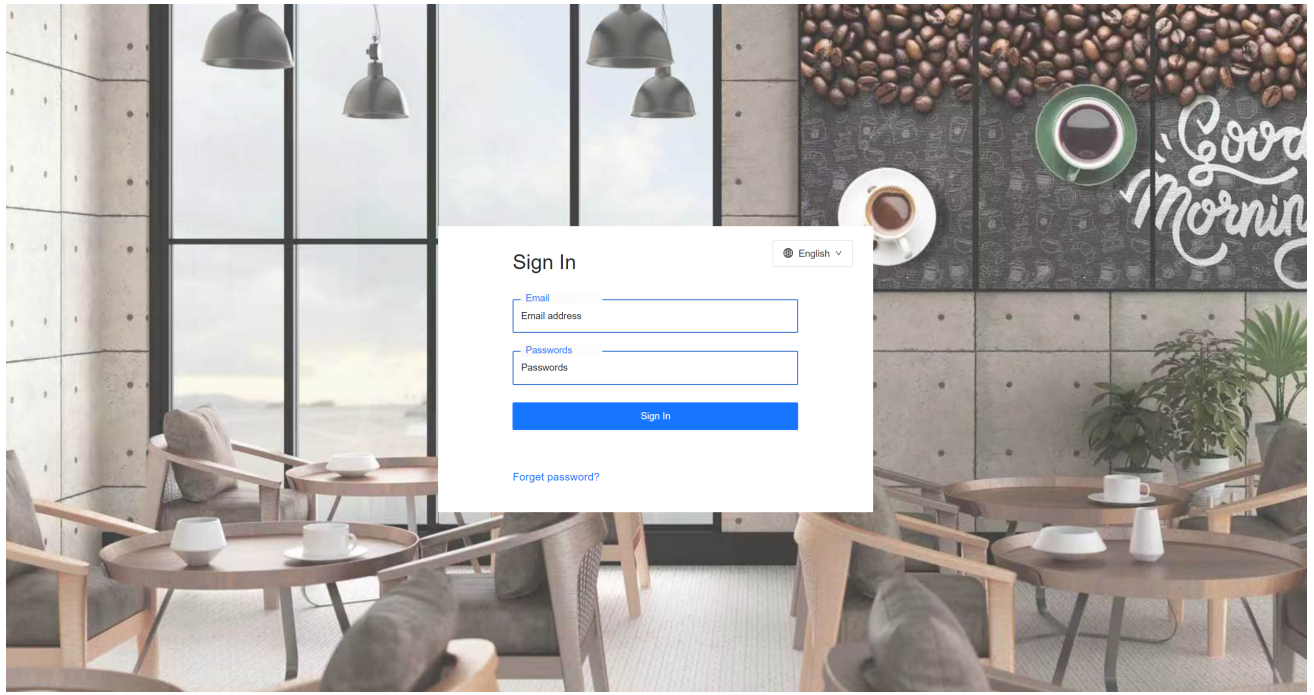

Once you have completed the form, you should **wait to receive a confirmation email** indicating that your request has been processed, and then you can continue with the remaining steps of this manual.

STEP 3. LICENSE ACTIVATION

Once you have received the email confirming that your request has been processed:

3.1. Log in to your M-Sign account (by clicking on the image or throught the link).

https://console.mokads.com/#/login

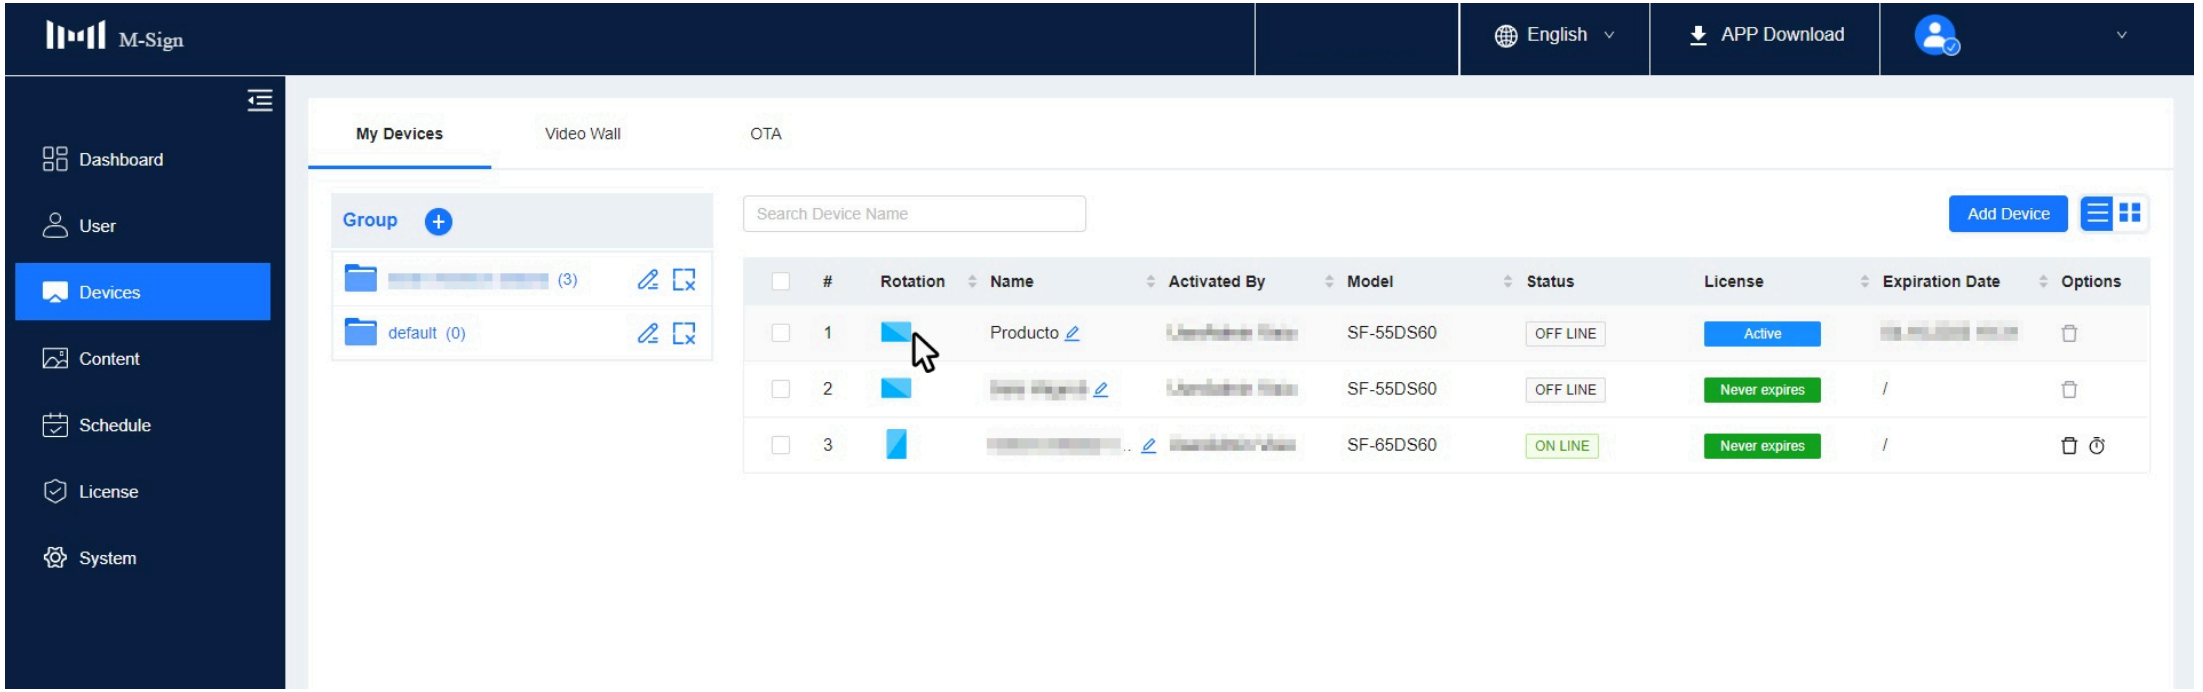

If you are not sure how to activate your user account, please refer to section " 1.2. Creating an UserAdmin account" of the "SF-CMS-MSIGN- OPERATION MANUAL"

STEP 3. LICENSE ACTIVATION

3.2. If you have already linked to the M-Sign platform the monitor on which you want to activate the license, proceed by following steps 3.3, 3.4, 3.5 and 3.6 of this manual (ignoring the Annex I).

If you have not linked yet the monitor to the M-Sign platform, please refer to Annex I of this manual for how to do so, and then proceed to steps 3.3, 3.4, 3.5 and 3.6 of this manual.

3.3. Open the monitor's settings menu by clicking on the icon with thw mouse (as shown in the image):

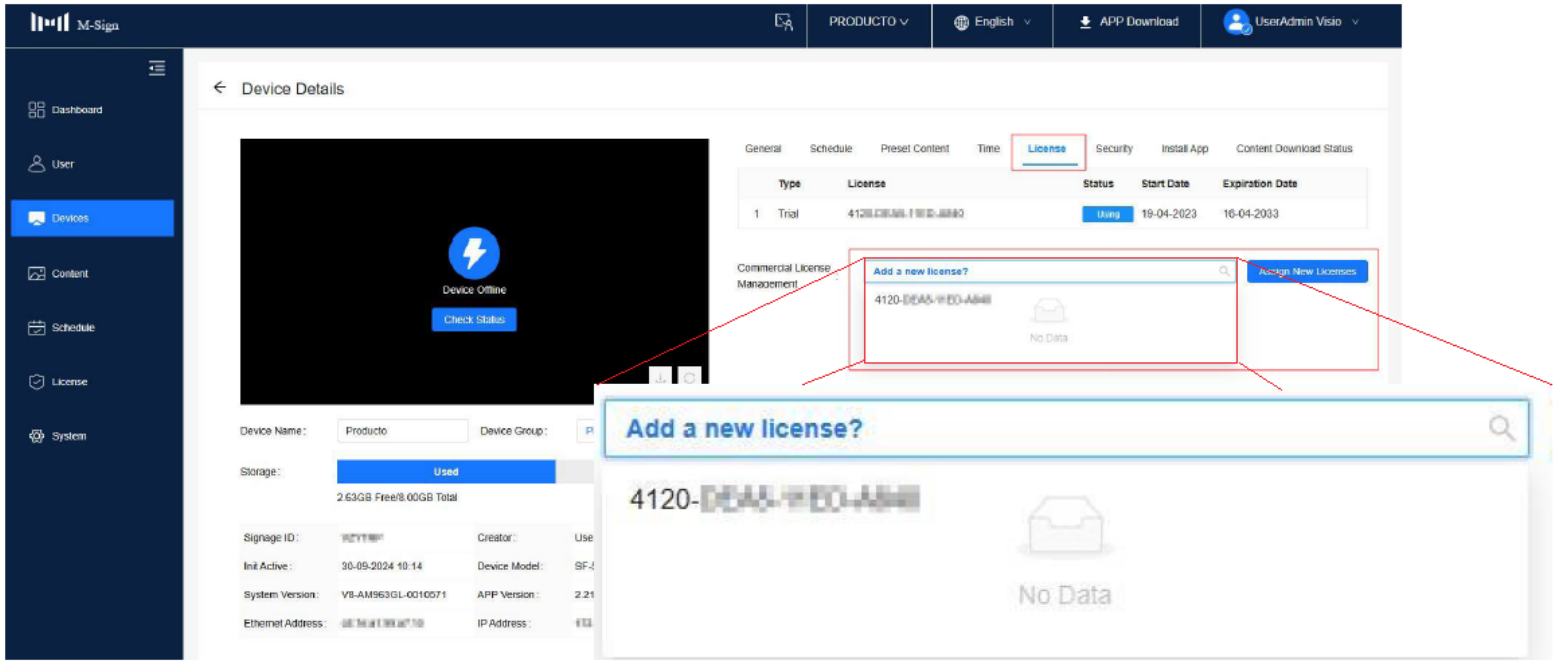

STEP 3. LICENSE ACTIVATION

3.4. Access tot the "License" section of the device and open the "Add new license?" dropdown menu.

3.5. Select the license that will appear in the dropdown menu (if you have multiple licenses available, more than one license code will appear in the dropdown).

3.6. Click on the button "Assign New License"

The processing process is finished and you can now work with the M-Sign platform and enjoy your license.

ANNEX I

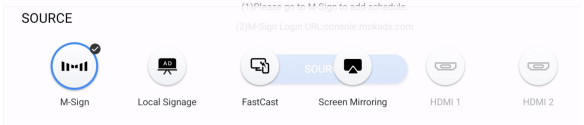

This Annex explains how to link a monitor to the M-Sign platform.

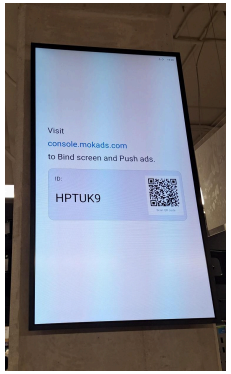

1. Connect the monitor to the power supply and to an Internet network.

2. Turn on the monitor.

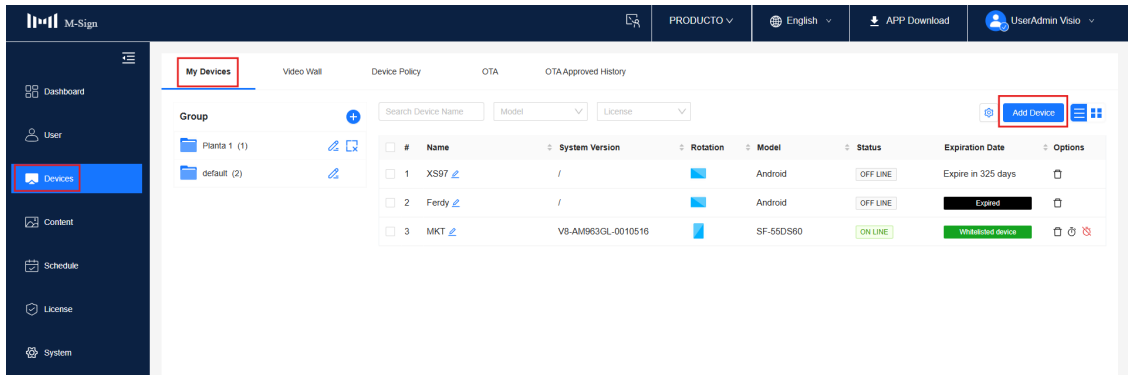

3. Open the M-Sign application using the remote control:

   3.1. Press the button  on the remote control.

   3.2. Select the M-Sign source. 

   3.3. Write down the ID (unique code composed of letters and/or numbers) displayed on the screen. 

   3.3. In the M-Sign platform, access to the "My Devices" section and click on the "Add device" button.

   3.4. Fill in the requested fields
      a. "Digital Signage ID": copy the ID displayed on the monitor screen.
      b. "Device Name": name the monitor will receive on the M-Sign platform.
      c. "Group": select the group you want the monitor to belong to (optional).
